(*) The 2019 figure recalculated to make the perimeter homogeneous and make it compatible with the 2020 transactions.

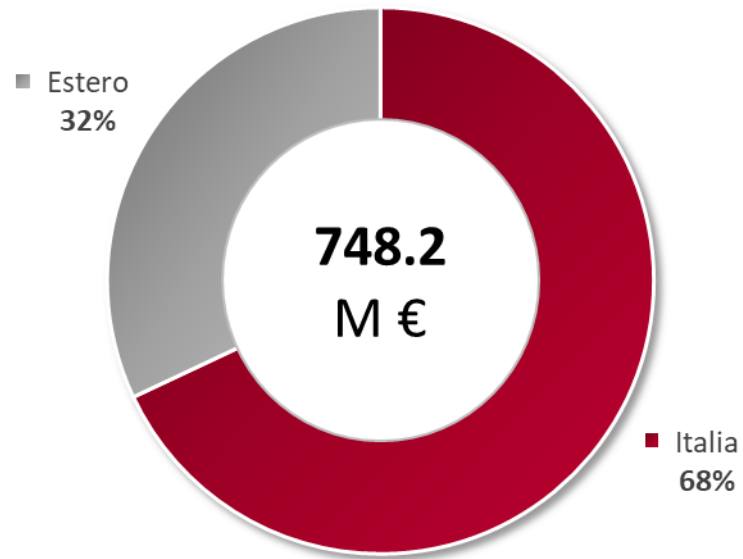

(*) The values at December 31, 2018 have been restated to take into account the net assets identified following the completion of the purchase price allocation process of the companies SIA Greece and SIA Slovakia, acquired on September 28, 2018. Therefore, said values had not been included in the financial statements at December 31, 2018, in accordance with the provisions of IFRS 3.

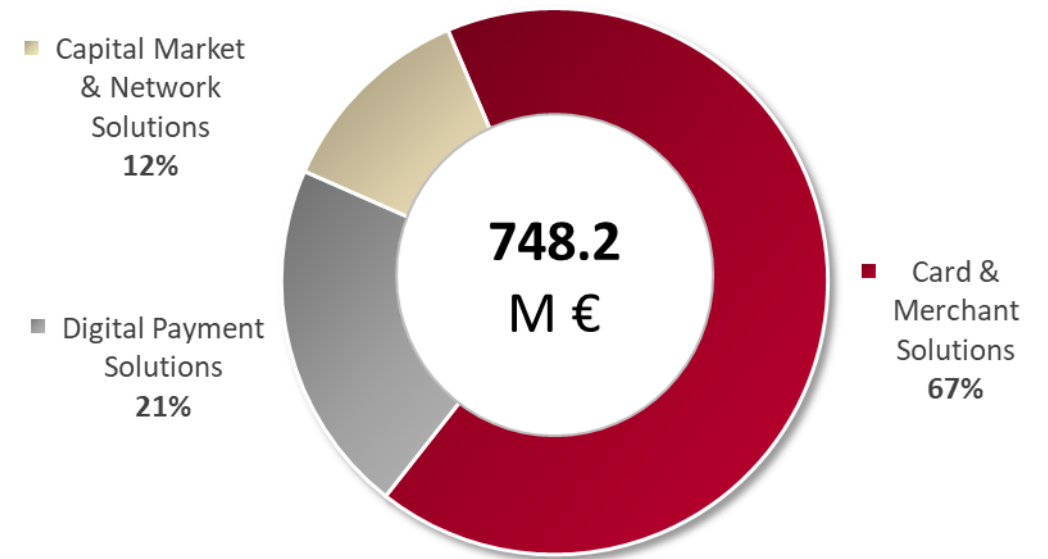

(**) The values of revenues at December 31, 2020, December 31, 2019 and December 31, 2018 consider the net value of the commissions received by the subsidiary SIApay (payment institution), while in the consolidated financial statements, commission income is included under Revenues for services and commission expense under Costs for services.
